She began to sing, the girl. Her voice was soft, so soft it was almost of the wind. It was a lullaby. She cradled her arms, rocking them gently back and forth. As if she was holding a baby. But she was not. Her arms were empty. On a cold morning a cyclist finds the brutally slaughtered body of a woman in her car, on a remote lane leading to the long-abandoned Irish village of Kelly's Forge. But when Detective Finnegan Beck arrives from the nearby town of Cross Beg to investigate he notices there's a baby's seat in the back of the car. A bottle of baby's milk lying in the footwell. And no child. Little Róisín isn't the first child to go missing from that same remote location though. There was another baby girl, taken more than fifty years before, who was never found. Has too much time passed for there to be a connection, or does something – or someone – link these two crimes? Beck claims he does not want to stay in Cross Beg. His heart is back in Dublin, with the woman he loves. But, knowing that a child's life depends on him changes things. He knows he has to find the missing baby girl. Because if he doesn't, he fears there's a chance everyone will give up the baby for dead, just like they did before... This dark, twisted page turner will keep you up all night. Perfect for fans of LJ Ross, Patricia Gibney, and Rachel Caine. Readers are loving *The Child Before*: 'So many twists and turns throughout the whole book. The Handbook on Criminal Litigation offers a comprehensive and practical guide to the areas of criminal litigation covered on the Legal Practice Course. Making effective use of realistic case studies which are backed up by documentation online, the text combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context. Written in an informal style, the text covers all procedural and evidential issues that arise in criminal cases. The more complex areas of criminal litigation are examined using numerous diagrams, flowcharts, and examples while potential changes in the law are highlighted by specially designed 'Looking Ahead' boxes. Each chapter ends with a key point summary and self-test questions, enabling students to quickly sum up what they have read and test their own knowledge. Online Resource Centre The comprehensive Online Resource Centre offers vital support to students throughout their course. Updates are freely accessible to enable students to keep up to date with developments in the field, while links to other useful websites and legislation encourage students to explore the subject area fully. Additionally, two chapters covering regulatory crime and fraud are freely accessible online for those students whose course emphasizes corporate crime. Lecturers are able to access video clips of fictional but realistic court proceedings which follow the case studies included in the text; documentation supporting these case studies is also provided via the site. Additional videos cover the procedure at the police station and sentencing in the Crown Court. Lecturers are also able to access a test bank of questions which provide an innovative way to assess students' understanding.
