Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway) Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers) GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago) You can save \$2,000 by cutting freight fees and "administrative" charges) Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea) Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki) The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. A guide to buying a used car or minivan features information on the strengths

and weaknesses of each model, a safety summary, recalls, warranties, and service tips. Vehicle shoppers can benefit from the what they've come to expect from the Edmunds name: true market values for trade-ins, private party and dealership-highlighted yearly model changes, and in-depth advice. Profiles and reviews more than one hundred cars and compact vans, offering discount price lists, complete ratings and specifications, and information on changes in the new model year. The most trustworthy source of information available today on savings and investments, taxes, money management, home ownership and many other personal finance topics. Please Send Money provides young adults with the tools they need to navigate the tumultuous world of personal finance with smart advice from leading expert Dara Duguay, Director of Citigroup's Office of Financial Education. Dozens of eye-opening, real-life stories chronicle the financial mistakes commonly made by young people and present an array of solutions. In response to criticism and disappointment from the Left, A Consequential President offers a bold assessment of the lasting successes and major achievements of President Obama. Had he only saved the U.S. economy with his economic recovery act and his program to restore the auto industry, President Obama would have been considered a successful president. He achieved so much more, however, that he can be counted as one of our most consequential presidents. With The Affordable Care Act, he ended the long-running crisis of escalating costs and inadequate access of treatment that had long-threatened the well-being of 50 million Americans. His energy policies drove down the cost of power generated by the sun, the wind, and even fossil fuels. His efforts on climate change produced the Paris Agreement, the first treaty to address global warming in a meaningful way, and his diplomacy produced a dramatic reduction in the nuclear threat posed by Iran. Add the withdrawal of troops from Iraq, the normalization of relations with Cuba, and his "pivot" toward Asia, and President Obama's triumphs abroad match those at home. Most importantly, as the first African-American president, he navigated race relations and a rising tide of bigotry, including some who

challenged his citizenship, while also fighting a Republican Party determined to make him one-term president. As a result, Obama's greatest achievement was restoring dignity and ethics to the office of the president, proof that he delivered his campaign promise of hope and change. This 2002 edition of the only complete new-car buying guide includes profiles and photos of new models, retail and dealer invoice prices, mileage ratings, warranties, and safety features. technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle. One of the world's leading spiritual teachers returns with an inspiring and provocative message with solutions to our planetary crises, offering effective steps to change the world and integrate all levels of our Being. Religion is psychological entrapment promoting the controlled behavior of the herd civilization. Institutionalized organized religion is the cause of enslavement, violence, prejudice, hatred, classism, and war. False religious institutions created god in their own personal image and after the likeness of their own mind for control and money. Every religious holy book has been altered, dissected, rewritten, and censored to appear as the word of God, and all the gods of religious holy books are controlled by fundamentalists. Organized religion is a serious threat to the human race and a mental illness that afflicts over 80% of the world's population. It has nothing to do with spirituality and is no more than a collection of unholy lies. The spiritual terrorism of religion frowns upon free will, dispises questions,

prohibits doubt, and survives on blind faith. Eternal life with God is only promised to the obedient religious-slaves who unconditionally follow rigid religious belief structures. This mythology was created based on division, not unity. Control is the essence of evil. The easiest way to control humanity is through fear, which is why the religious Elite created gods of intimidation and fear; to control others and solicit money. "The Awakening of Global Consciousness is a must read for the millions who've read Jawara's earlier classic books and a great beginning for those unfamiliar with his great works questioning the validity of the world's three major religions."
