Natural Killer Cells and Microbes: Beyond the License to Kill Sep 09 2021 This eBook is a collection of articles from a Frontiers Research Topic. Frontiers Research Topics are very popular trademarks of the Frontiers Journals Series: they are collections of at least ten articles, all centered on a particular subject. With their unique mix of varied contributions from Original Research to Review Articles, Frontiers Research Topics unify the most influential researchers, the latest key findings and historical advances in a hot research area! Find out more on how to host your own Frontiers Research Topic or contribute to one as an author by contacting the Frontiers Editorial Office: frontiersin.org/about/contact.

German Reich and Protectorate of Bohemia and Moravia September 1939–September 1941 Nov 30 2020 This source edition on the persecution and murder of the European Jews by Nazi Germany presents in a total of 16 volumes a thematically comprehensive selection of documents on the Holocaust. The work illustrates the contemporary contexts, the dynamics, and the intermediate stages of the political and social processes that led to this unprecedented mass crime. It can be used by teachers, researchers, students, and all other interested parties. The edition comprises authentic testimony by persecutors, victims, and onlookers. These testimonies are furnished with academic annotations and the vast majority of them are published here for the first time in English. Volume 3 documents the persecution of the Jews in the German Reich after the start of the Second World War and in the 'Protectorate of Bohemia and Moravia', created in March 1939, until September 1941. It reveals the increasing isolation of the German and Czechoslovak Jews but also the perpetrators' plans up to the eve of systematic deportations.

Maori Health and Government Policy 1840-1940 Nov 23 2022 This book maps official endeavours to meet Maori health needs during the first hundred years of organised European settlement in New Zealand. Focusing on policy initiative rather than health outcomes, Maori Health and Government Policy explores four major themes: the administration and

funding of Maori health; the association between Maori and hospitals; the subsidised medical officers who provided primary health care; and infection control and the sanitary measures. Other topics include the role of missionary medicine in the 1840s and 1850s and Maori health research.

Concepts, Frames and Cascades in Semantics, Cognition and Ontology Feb 20 2020 This open access book presents novel theoretical, empirical and experimental work exploring the nature of mental representations that support natural language production and understanding, and other manifestations of cognition. One fundamental question raised in the text is whether requisite knowledge structures can be adequately modeled by means of a uniform representational format, and if so, what exactly is its nature. Frames are a key topic covered which have had a strong impact on the exploration of knowledge representations in artificial intelligence, psychology and linguistics; cascades are a novel development in frame theory. Other key subject areas explored are: concepts and categorization, the experimental investigation of mental representation, as well as cognitive analysis in semantics. This book is of interest to students, researchers, and professionals working on cognition in the fields of linguistics, philosophy, and psychology.

Lithuanian Yeshivas of the Nineteenth Century Jan 13 2022 This is the first systematic study of the Lithuanian yeshivas that flourished from 1802 to 1914 in their social and cultural context; their legacy still dominates orthodox Jewish society. The main focus is the yeshiva of Volozhin, which in its independence of the local community was the model for everything that followed, but chapters are also devoted to the yeshivas of Slobodka and Telz, and to the kollel system.
