Take a journey of self-healing and rediscovery with this impressive volume that brings together three of the most popular energy healing systems. Living in harmony with nature and harnessing its vital energies to help heal our bodies is the central message of this fascinating book. In the first section, Crystal Healing, the authors Sue and Simon Lilly explore the innate power of crystals and their ability to heal, to soothe and calm, and to strengthen and uplift. By placing certain crystals at precise positions around the body, the vibrational energy that they transmit can be channelled to achieve specific effects. The power and beauty of crystals has been well documented and the authors take great care to describe the qualities of each crystal and its potential use as a healing tool. The second section, Colour Healing, examines the influence of colour on our lives, and shows that through learning to understand the way we respond to the stimulus of colour, we can use its energy to promote balance and wellbeing. There are also instructions on how to use colour as a healing tool, using single colour guidance, single colour assessment and specific colour placement. The third section, Chakra Healing, provides an easy-to-follow explanation of the complex philosophy surrounding the seven chakras of the human body. Chakras are vortices of dynamic energy that have formed where two or more subtle energies meet in the body. These subtle forces play a vital role in maintaining the body's natural balance and flow of energy. This section explains the characteristics and influences of each chakra and how they affect our behaviour and emotional reactions. in the book and provides the tools necessary to activate these centers of transformative energy. In the ancient science of tantra, the human body is viewed as the most perfect instrument for the expression of consciousness, a perfection realized through the development of psychic centers known as chakras. Located within the cerebrospinal system, the chakras are the stage upon which the interaction between higher consciousness and desire is played out. Consequently, it is through understanding and utilizing the energies of the chakras that we ultimately reach an enlightened state of being. In *Chakras*, Indian scholar and tantra practitioner Harish Johari introduces the classical principles of the chakras as well as their practical application for today. In this expanded edition, complete with new art and text, he unfolds the mysteries of these subtle centers of transformation with visualization techniques essential to a fully realized tantric practice. Unlike other books in its field, *Chakras* provides the tools to activate these centers of transformative energy and elevate one's intellectual knowledge to an experience of spiritual growth. Meditating on the beautiful, full-color illustrations of each chakra vitalizes the cerebrospinal centers and harmonizes the entire system both physically and psychically. Explanations of each chakra elaborate on the chakra's connection to elements, colors, sounds, sense and work organs, desires, planets and deities, as well as on behavioral characteristics and particular effects of meditation. For scholars and spiritual aspirants of every level, *Chakras* is an invaluable, practical source of information and techniques. This book is a step-by-step guide for anyone who would like to help an ailing friend heal naturally. It also could be used to accelerate self-healing or to help your ailing pets heal. The book outlines the specific bodily functions that each chakra as an energy center governs. With this information, the healer analyzes a friend's energy field to determine which chakra of the body has become stressed. The healer then determines precisely which color of healing light energy is appropriate, based on the color associated with that specific chakra. The healer simply projects that color of healing energy. By projecting the color of light that resonates with the corresponding chakra, that stressed chakra is stimulated and strengthened to resume natural rejuvenation within the body. The book shows how to manifest colors or even musical notes that will resonate harmonically with chakras to restore them as energy generators of good health. Combine the wonderful healing properties of color to the sounds and vibrations of tuning forks in this healing modality. Easy to follow directions shows you how to choose your colored cloths and to select your tuning forks, with your client goals in mind. Safe, fun and effective. Can be used on children and pets. *Color Your Chakras* is a fun activity book for adults and children alike. The chakras are powerful energy centers located in your subtle body. Unknown to many people, these vortexes of life energy govern and regulate your physical body. According to the ancient Tantric and Vedic scriptures of India, there are 14 chakras--seven major ones along your spinal column, and seven others, most of which are located in your brain. Each chakra performs a specific function and is associated with discrete body parts and aspects of mind. Each chakra (or "wheel") has a hub, where subtle energy conduits intersect; and spokes, which are radiations of subtle energy. Chakras are often likened to lotuses, and the radiations of energy are equated with lotus petals. The lotus petals on six of the seven major chakras comprise the entire Sanskrit alphabet, and the seventh major chakra vibrates all 50 letters of the Sanskrit alphabet. Each left-hand page in *Color Your Chakras*

includes a description and explanation of each chakra or chakra deity. Each right-hand page is an appropriate drawing. The explanations include information about the drawings and the specific colors that are mentioned in the scriptures of ancient India.
