Today there is a growing awareness that our planet has entered a time of crisis. The damage to our ecosystems, and the pollution we create, are consequences of our self-centred and irresponsible cultures. It is

now undeniable that significant change is required. According to wilderness guide and former psychology professor Bill Plotkin, the changes we need will only flow once we progress from egocentric, competitive consumer societies to ecocentric, soul-based ones that are sustainable, cooperative and compassionate. Bill Plotkin profiles eight maturation stages in the human life cycle from child to elder and depicts the qualities and challenges of each. He offers a practical integration of personal and spiritual understandings (from nature and the journey of the human soul) that will allow us to transform our culture. This landmark book - the result of 25 years' work - encourages us to connect personally with the natural world and reassess our place in it. In this way we can create a more responsible and fulfilling way to live. Given the perilous state of our planet, the optimism and guidance contained in NATURE AND THE HUMAN SOUL are an inspiring breath of fresh air! The world has moved on. Time is no more.
