You Never Forget Your First Jan 08 2022 "In a genre overdue for a shakeup, Alexis Coe takes a closer look at our first--and finds he's not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, chased rich young women, caused an international incident, and never backed down--even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. Coe focuses on his activities off the battlefield--like espionage and propaganda. After an unlikely victory in the Revolutionary War, Washington once again shocked the world by giving up power, only to learn his compatriots wouldn't allow it. The founders pressured him into the presidency--twice. He established enduring norms but left office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty finally confronted his greatest hypocrisy--what to do with the hundreds of men, women, and children he owned--before succumbing to a brutal death. Alexis Coe combines rigorous research and unsentimental storytelling, finally separating the man from the legend."--

Why You Can't Teach United States History without American Indians Jul 02 2021 A resource for all who teach and study history, this book illuminates the unmistakable centrality of American Indian history to the full sweep of American history. The nineteen essays gathered in this collaboratively produced volume, written by leading scholars in the field of Native American history, reflect the newest directions of the field and are organized to follow the chronological arc of the standard American history survey. Contributors reassess major events, themes, groups of historical actors, and approaches--social, cultural, military, and political--consistently demonstrating how Native American people, and questions of Native American sovereignty, have animated all the ways we consider the nation's past. The uniqueness of Indigenous history, as interwoven more fully in the American story, will challenge students to think in new ways about larger themes in U.S. history, such as settlement and colonization, economic and political power, citizenship and movements for equality, and the fundamental question of what it means to be an American. Contributors are Chris Andersen, Juliana Barr, David R. M. Beck, Jacob Betz, Paul T. Conrad, Mikal Brotnov Eckstrom, Margaret D. Jacobs, Adam Jortner, Rosalyn R. LaPier, John J.

Eastern Europe! : 2nd Edition Nov 06 2021 Almost four years after the publication of the first comprehensive popular history of Eastern Europe, Tomek Jankowski returns with a much-needed second edition that, like the first, seeks to demystify Europe's elusive "other half." These years have seen the Ukraine War, Putin's resurgent Russia, a migration crisis, and a precarious future for the European Union. All this and more is now addressed in *Eastern Europe! Everything You Need to Know about the History (and More) of a Region That Shaped Our World and Still Does*. Ideal for students, businesspeople, and those who simply want to know more about where Grandma or Grandpa came from. Everything You Need to Know about Asian-American History Jun 13 2022 Presents an overview of history, traditions, myths, and contributions of Asian Americans and examines the impact they have made on life in the United States.

The Dawn of Everything Mar 10 2022 INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

You Can't Be Neutral on a Moving Train Sep 23 2020 If you're both overcome and angered by the atrocities of our time, this will inspire a "new generation of activists and ordinary people who search for hope in the darkness" (Keeanga-Yamahtta Taylor). Is change possible? Where will it come from? Can we actually make a difference? How do we remain hopeful? Howard Zinn—activist, historian, and author of *A People's History of the United States*—was a participant in and chronicler of some of the landmark struggles for racial and economic justice in US history. In his memoir, *You Can't Be Neutral on a Moving Train*, Zinn reflects on more than thirty years of fighting for social change, from his teenage years as a laborer in Brooklyn to teaching at Spelman College, where he emerged in the civil rights movement as a powerful voice for justice. A former bombardier in World War II, he later became an outspoken antiwar activist, spirited protestor, and champion of civil disobedience. Throughout his life, Zinn was unwavering in his belief that "small acts, when multiplied by millions of people, can transform the world." With a foreword from activist and scholar Keeanga-Yamahtta Taylor, this revised edition will inspire a new generation of readers to believe that change is possible.

As complex as art history is, this book is a welcome, succinct introduction to some classic Western masters.' Cindy Helm, *New York Journal of Books* 'Excellent introduction to the subject. A good quality book, tightly bound, and well illustrated.' – Colin, Amazon reviewer 'The Short Story of Art is an attractive volume that serves as a convenient introduction to major movements, works, themes, and techniques of Western art.
