MyLab Accounting Join over 10 million students benefiting from Pearson MyLabs. This title can be supported by MyLab Accounting, an online homework and tutorial system designed to test and build your understanding. Alan Sangster is Professor of Accounting at the University of Sussex and formerly at other universities in the UK, Brazil, and Australia. Lewis Gordon is Lecturer in Accounting at the University of Liverpool, and has extensive experience of teaching financial accounting at undergraduate and professional levels. Frank Wood formerly authored this text and he remains one of the best-selling authors of accounting textbooks. Business Accounting is the world's best-selling textbook on bookkeeping and accounting. Now in its eleventh edition, it has become the standard introductory text for accounting students and professionals alike. The book is used on a wide variety of courses in accounting and business, both at secondary and tertiary level and for those studying for professional qualifications. It builds on Business Accounting 1 to cover advanced aspects of financial accounting. It also covers introductory aspects of management accounting suitable for use at all levels up to and including professional foundation level courses and first-year degree courses. Business Accounting Basics is the ideal introduction into the fundamentals of bookkeeping and financial accounting. The book utilises both the IFRS and IAS framework making the text accessible to students and professionals from all around the globe. Its user-friendly worked examples and clear explanations help students build their knowledge of accounting standards one step at a time. With over 250 assessment questions containing full solutions, Business Accounting Basics is the perfect introduction to Business Accounting. This text has been developed to test students' knowledge of basic bookkeeping

and accounting. It is specifically linked to the seventh edition of Business Accounting 1, but is general enough to be used alongside any text in basic accounting. Approximately 400 questions are provided with answers, explanations and workings at the back of the book. Frank Wood's Business Accounting volumes are the world's best-selling textbooks on bookkeeping and accounting. Now, for the first time, the authors have produced a textbook specifically for users of UK GAAP practice and terminology. This is the leading introductory text for accounting students and professionals alike. This is the latest edition of the world's best-selling textbook on bookkeeping and accounting. It contains a large number of questions and answers and worked examples. Business Accounting is the world's best-selling textbook on bookkeeping and accounting. Its clear explanations, in simple language, a wealth of worked examples and large number of questions and answers, have made it a popular choice with both students and lecturers for over thirty years. Other popular features are its comprehensiveness, the clarity of presentation and layout and the structured manner in which it builds knowledge in logically progressing short chapters. In this edition the distribution of chapters between the two volumes has been rationalised. Volume 1 now includes more-complete coverage of special accounting procedures and partnerships. Chapters on partnership dissolution, joint venture accounts, bills of exchange, and consignment accounts, have been incorporated from Volume 2. A selection of recent questions from examining boards and professional bodies has been included.

To find out who your Pearson representative is, visit [www.pearsoned.co.uk/relocator](http://www.pearsoned.co.uk/relocator) "This edition marks a major change in focus that reflects the consolidation of the previous two volumes into one. The emphasis is now exclusively on financial accounting. This change, and the resulting increased focus on company accounting and International GAAP within the text, were made in response to the comments of reviewers of the previous edition, who felt this was what we should be focusing on. This textbook has been written to provide a very thorough introduction to accounting. Anyone seeking to obtain a good grounding in financial accounting will find this book suitable to their needs. This includes those studying accounting on courses at school, college or university; or studying for qualifications from the LCCI, Association of Accounting Technicians, the Institute of Secretaries and Administrators; or for qualifications of any of the six UK and Irish Chartered Accountancy bodies. The financial accounting requirements for National Vocational Qualifications and Scottish Vocational Qualifications are also fully covered"-- This Value Pack consists of Business Accounting: Volume 1, 10/e by Wood/Sangster and Business Accounting: Volume 2, 10/e by Wood/Sangster; 1/e (ISBN: 9781405886185) Frank Wood's Business Accounting volumes are the world's best-selling textbooks on bookkeeping and accounting. Objectives; Activities designed to broaden and reinforce students' understanding of concepts; \*Glossary defining key terms and concepts, referenced to the chapter in which they appear; Sets of 20 multiple choice questions positioned in the book at relevant points, with answers given in Appendix 2; Notes for Students to help them with their studies and examinations; Two-colour design to emphasise key points. used on professional and secondary-level accounting courses. comprehensive coverage of accounting principles; a large number of worked examples, practice questions and answers to reinforce learning; clear explanations in short chapters with logical progression. accounting textbooks. Alan Sangster BA MSc Cert TESOL CA - Professor of Accounting at the Open University Business School, and was previously at The Queen's University of Belfast, the University of Aberdeen and the University of Strathclyde. Alan Sangster 0 273 65557 4 This comprehensive and concise book critically examines the essential principles, practices and approaches to financial accounting, cost and management accounting, and financial management. This book is intended for the postgraduate students of management and commerce. Besides, it is equally useful for the students of engineering and technology. The objective of this book is to assist the students and readers in developing an understanding of the theories of various branches of accounting and financial management, and to integrate the knowledge with practice in evaluating the strategic management decisions. The book contains thirty-three chapters divided into three parts. Part A comprising ten chapters discusses the key principles and practices of financial accounting. Part B containing eight chapters explains various methods and techniques of cost and management accounting. Part C comprising fifteen chapters provides an insight into the numerous dimensions of financial management policies and practices. Key Features • A systematic

presentation of the subject matter, supported with substantial number of Examples, Diagrams and Tables for easy understanding. • The topics of 'Accounting for Fixed Assets' (Chapter 4), 'Depreciation Accounting' (Chapter 5), 'Revenue Recognition' (Chapter 6), 'Accounting for Inventories' (Chapter 8) and 'Cash Flow Statement' (Chapter 20) have been written thoroughly in accordance with the Accounting Standards (AS) issued by the ICAI. • Review questions covering examination problems and their answers are given at the end of each chapter. The detailed answers are available in the Instructors' Manual. • An exhaustive glossary of terms have been provided to explain the core concepts. • Solutions Manual is also available.
