Connecting Histories: Decolonization and the Cold War in Southeast Asia draws on newly available archival documentation from both Western and Asian countries to explore decolonization, the Cold War, and the establishment of a new international order in post-World War II Southeast Asia. Major historical forces intersected here--of power, politics, economics, and culture--on trajectories East to West, North to South, across the South itself, and along less defined tracks. Especially important, democratic-communist competitions sought the loyalties of Southeast Asian nationalists, even as some colonial powers sought to resume their prewar dominance. These intersections are the focus of the contributions to this book, which use new sources and approaches to examine some of the most important historical trajectories of the twentieth century in Burma, Vietnam, Malaysia, and a number of other countries. Student Solutions Manual to accompany Fundamentals of Physics 9th Edition by Halliday By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources. Guzziology has been called the bible for
