This book is developed to help you in passing the Project Management Professional Certification PMP(r) Exam the first time. The book is created based on the "A Guide to the Project Management Body of Knowledge - Fifth Edition" which is registered for PMI in 2013, I will call it here the Standard Guide. This book contains one Full PMP(r) Exam with its detailed answer and explanation. Please note that this book has the same exam, Exam 1, in the "Passing the PMP(r) Exam the First Time: Volume (1) - Standards Aid, Exam Tips, and One Full Exam (All in One)" book by the same author. Therefore, if you bought "Passing the PMP(r) Exam the First Time: Volume (1)", there is no need to buy this book. This book is different from others as it is created by an author who passed the PfMP(r), PgMP(r) and PMP(r) Exams the first time, so, the author knows how to pass the different exams from the PMI the first time. This book reflects the flavor of the questions that you are going to see on the exam. Besides,

it covers different examples of each type of the commonly found questions on the PMP(r) Exam model; including the regular question, table question, and question set. As a project manager, your practical experience will help you a lot to pass the exam, and it is a critical success factor of your readiness to the exam. However, in this book, you will find a major support to orient you to the examination philosophy that you will face. PMP, PgMP, and PfMP are registered trademarks by PMI. This book is not related to PMI or licensed by PMI. Please note that each question answer has the following details:

- \* The right answer
- \* Question Reference: this is referring to the Standard Guide: "A Guide to the Project Management Body of Knowledge - Fifth Edition" which is registered for PMI in 2013. If the question reference section from the Standard Guide span over few pages, I will mention the page number that is directly related to the subject question
- \* Clarification and Tips: this is the most important part of the answer that describes the reasons for selecting the right answer and eliminating the three other choices
- \* Process Group: the name of the process group covering this question
- \* Process: the process pertained to this question's subject
- \* Knowledge Area: the name of the Knowledge Area covering this question

Keep in mind that you will face in the exam 200 questions; you will not be able to detect the Progress Group, Knowledge Area or Process for some of them, which make the subject more difficult. Therefore, I recommend that you execute your exercises in a similar environment by going through the exam, which has 200 questions mixed from the different program knowledge areas. Going through a group of questions about Project Integration Management knowledge area and another about Project Time Management knowledge area, etc., will not add the same value and will help you to get a wrong indication of your studying level and readiness to enter the exam. However, if you still

need to test yourself for a particular knowledge area or process group, use Appendix (A) to get the list of questions in the Exam ordered by Process Group and by Knowledge Area. This 100 questions and answers CFM Certified Facility Manager Practice Exam will surely give you an idea and help you pass the exam. This book is a must if you want to feel the actual exam. All of the questions here are situational, or scenario-based. Explanations were also provided for each answer. This is NOT the actual questions and answers of CFM exam. This is just an example. In the actual exam, almost 150 out of 180 are like these. Buying and reading this book won't guarantee you'll pass the exam. We still highly recommend you undergo training, so you'll better understand the competencies. This PRACTICE TEST is only intended for those who feel scared to lose their hard-earned money due to exam failure. If you can pass this test in one try, there's some chances you can pass the actual exam too although we cannot guarantee that. The author of this book is an independent practice exam provider not associated/affiliated with the certification organization mentioned throughout this book.
