Daybreak on Raven Island Jun 06 2021 From the critically acclaimed author of Midnight at the Barclay Hotel comes a thrilling new middle grade mystery novel inspired by Alcatraz Prison. Tori, Marvin, and Noah would rather be anywhere else than on the seventh grade class field trip to Raven Island prison. Tori would rather be on the soccer field, but her bad grades have benched her until further notice; Marvin would rather be at the first day of a film festival with his best friend, Kevin; and Noah isn't looking forward to having to make small talk with his classmates at this new school. But when the three of them stumble upon a dead body in the woods, miss the last ferry back home, and then have to spend the night on Raven Island, they find that they need each other now more than ever. They must work together to uncover a killer, outrun a motley ghost-hunting crew, and expose the age-old secrets of the island all before daybreak.

*Flags of Our Fathers Oct 10 2021 #1 NEW YORK TIMES BESTSELLER • This is the true story behind the immortal photograph that has come to symbolize the courage and indomitable will of America In this unforgettable chronicle of perhaps the most famous moment in American military history, James Bradley has captured the glory, the triumph, the heartbreak, and the legacy of the six men who raised the flag at Iwo Jima. Here is the true story behind the immortal photograph that has come to symbolize the courage and indomitable will of America. In February 1945, American Marines plunged into the surf at Iwo Jima—and into history. Through a hail of machine-gun and mortar fire that left the beaches strewn with comrades, they battled to the island's highest peak. And after climbing through a landscape of hell itself, they raised a flag. Now the son of one of the flagraisers has written a powerful account of six very different young men who came together in a moment that will live forever. To his family, John Bradley never spoke of the photograph or the war. But after his death at age seventy, his family discovered closed boxes of letters and photos. In *Flags of Our Fathers*, James Bradley draws on those documents to retrace the lives of his father and the men of Easy Company. Following these men's paths to Iwo Jima, James Bradley has written a classic story of the heroic battle for the Pacific's most crucial island—an island riddled with Japanese tunnels and 22,000 fanatic defenders who would fight to the last man. But perhaps the most interesting part of the story is what happened after the victory. The men in the photo—three were killed during the battle—were proclaimed heroes and flown home, to become reluctant symbols. For two of them, the adulation was shattering. Only James Bradley's father truly survived, displaying no copy of the famous photograph in his home, telling his son only: “The real heroes of Iwo Jima were the guys who didn't come back. ” Few books ever have captured the complexity and furor of war and its aftermath as well as *Flags of Our Fathers*. A penetrating, epic look at a generation at war, this is history told with keen insight, enormous honesty, and the passion of a son paying homage to his father. It is the story of the difference between truth and myth, the meaning of being a hero, and the essence of the human experience of war.*

The Chaneyville Incident Mar 15 2022 Winner of the PEN/Faulkner: "Rivals Toni Morrison's *Song of Solomon* as the best novel about the black experience in America since Ellison's *Invisible Man*" (The Christian Science Monitor). Brilliant but troubled historian John Washington has left Philadelphia, where he is employed by a major university, to return to his hometown just north of the Mason–Dixon Line. He is there to care for Old Jack, one of the men who helped raise him when he was growing up on the Hill, an old black neighborhood in the little Pennsylvania town—but he also wants to learn more about the death of his father. What John discovers is that his father, Moses Washington, left behind extensive notes on a mystery he was researching: why thirteen escaped slaves reached freedom in Chaneyville only to die there, for reasons forgotten or never known at all. Based on meticulous historical research, *The Chaneyville Incident* explores the power of our pasts, and paints a vivid portrait of realities such as the Underground Railroad's activity in Bedford County, Pennsylvania, and the phenomenon of enslaved people committing suicide to escape their fate. This extraordinary novel, a finalist for the National Book Award, was described by the Los Angeles Times as "perhaps the most significant work by a new black male author since James Baldwin dazzled in the early '60s with his fine fury," and placed David Bradley in the front ranks of contemporary American authors.

A Companion to Nineteenth-Century Philosophy Mar 03 2021 Investigate the challenging and nuanced philosophy of the long nineteenth century from Kant to Bergson *Philosophy in the nineteenth century* was

characterized by new ways of thinking, a desperate searching for new truths. As science, art, and religion were transformed by social pressures and changing worldviews, old certainties fell away, leaving many with a terrifying sense of loss and a realization that our view of things needed to be profoundly rethought. *The Blackwell Companion to Nineteenth-Century Philosophy* covers the developments, setbacks, upsets, and evolutions in the varied philosophy of the nineteenth century, beginning with an examination of Kant's Transcendental Idealism, instrumental in the fundamental philosophical shifts that marked the beginning of this new and radical age in the history of philosophy. Guiding readers chronologically and thematically through the progression of nineteenth-century thinking, this guide emphasizes clear explanation and analysis of the core ideas of nineteenth-century philosophy in an historically transitional period. It covers the most important philosophers of the era, including Hegel, Fichte, Schopenhauer, Mill, Kierkegaard, Marx, Nietzsche, Bradley, and philosophers whose work manifests the transition from the nineteenth century into the modern era, such as Sidgwick, Peirce, Husserl, Frege and Bergson. The study of nineteenth-century philosophy offers us insight into the origin and creation of the modern era. In this volume, readers will have access to a thorough and clear understanding of philosophy that shaped our world.

Chimpanzee Jul 07 2021 Unemployment has ravaged the U.S. economy. People struggle everywhere, exhausted by the collapse that destroyed their lives. Benjamin Cade is an expert in cognition, and before the flatlined economy caught up to him, he earned his living as a university instructor. Now, without income, he joins the millions defaulting on their loans — in his case, the money he borrowed to finance his degrees. But there are consequences. Using advances in cognitive science and chemical therapy, Ben's debtors can reclaim their property — his education. The government calls the process "Repossession Therapy." The data Ben's repossession will yield is invaluable to those improving the "indexing" technology — a remarkable medical advance that has enabled the effective cure of all mental disorders. By disassembling his mind, doctors will gain the expertise to assist untold millions. But Ben has no intention of losing his mind without a fight, so he begins

teaching in the park, distributing his knowledge before it's gone in a race against ignorance. And somewhere in Ben's confusing takedown, Chimpanzee arrives. Its iconography appears spray-painted around town. Young people in rubber chimpanzee masks start massive protests. As Ben slowly loses himself, the Chimpanzee movement seems to grow. And all fingers point to Ben.

A Knife in the Fog Jan 01 2021 Physician Arthur Conan Doyle takes a break from his practice to assist London police in tracking down Jack the Ripper in this debut novel and series starter. September 1888. A twenty-nine-year-old Arthur Conan Doyle practices medicine by day and writes at night. His first Sherlock Holmes story, *A Study in Scarlet*, although gaining critical and popular success, has only netted him twenty-five pounds. Embittered by the experience, he vows never to write another "crime story." Then a messenger arrives with a

mysterious summons from former Prime Minister William Gladstone, asking him to come to London immediately. Once there, he is offered one month's employment to assist the Metropolitan Police as a "consultant" in their hunt for the serial killer soon to be known as Jack the Ripper. Doyle agrees on the stipulation his old professor of surgery, Professor Joseph Bell--Doyle's inspiration for Sherlock Holmes--agrees to work with him. Bell agrees, and soon the two are joined by Miss Margaret Harkness, an author residing in the East End who knows how to use a Derringer and serves as their guide and companion. Pursuing leads through the dank alleys and courtyards of Whitechapel, they come upon the body of a savagely murdered fifth victim. Soon it becomes clear that the hunters have become the hunted when a knife-wielding figure approaches.

Invisible Companions Oct 22 2022 From the US to Nepal, author J. Bradley Wigger travels five countries on three continents to hear children describe their invisible friends—one-hundred-year-old robins and blue dogs, dinosaurs and teapots, pretend families and shape-shifting aliens—companions springing from the deep well of childhood imagination. Drawing on these interviews, as well as a new wave of developmental research, he finds a fluid and flexible quality to the imaginative mind that is central to learning, co-operation, and paradoxically, to real-world rationality. Yet Wigger steps beyond psychological territory to explore the religious significance of the kind of mind that develops relationships with invisible beings. Alongside Cinderella the blue dog, Quack-Quack the duck, and Dino the dinosaur are angels, ancestors, spirits, and gods. What he uncovers is a profound capacity in the religious imagination to see through the surface of reality to more than meets the eye. Punctuated throughout by children's colorful drawings of their see-through interlocutors, the book is highly engaging and alternately endearing, moving, and humorous. Not just for parents or for those who work with children, *Invisible Companions* will appeal to anyone interested in our mind's creative and spiritual possibilities.

This Astounding Close Jul 19 2022 Even after Lee surrendered to Grant at Appomattox, the Civil War continued to be fought, and surrenders negotiated, on different fronts. The most notable of these occurred at Bennett Place, near Durham, North Carolina, when Confederate General Joseph E. Johnston surrendered the Army of Tennessee to Union General William T. Sherman. In this first full-length examination of the end of the war in North Carolina, Mark Bradley traces the campaign leading up to Bennett Place. Alternating between Union and Confederate points of view and drawing on his readings of primary sources, including numerous eyewitness accounts and the final muster rolls of the Army of Tennessee, Bradley depicts the action as it was experienced by the troops and the civilians in their path. He offers new information about the morale of the Army of Tennessee during its final confrontation with Sherman's much larger Union army. And he advances a fresh interpretation of Sherman's and Johnston's roles in the final negotiations for the surrender.

Queen's Gambit Feb 14 2022 Spring, 1897. London. Margaret Harkness, now in her early forties, must leave England for her health but lacks the funds. A letter arrives from her old friend Professor Bell, her old comrade in the hunt for Jack the Ripper and the real-life inspiration for Sherlock Homes. Bell invites her to join him in Germany on a mysterious mission for the German government involving the loss of state secrets to Anarchists. The resolution of this commission leads to her being stalked through the streets of London by a vengeful man armed with a powerful and nearly silent air rifle who has both Margaret and Queen Victoria in his sights. Margaret finds allies in Inspector James Ethington of Scotland Yard and his fifteen-year-old daughter, Elizabeth, who

aspires to follow in Margaret's cross-dressing footsteps. The hunt is on, but who is the hunter, and who the hunted as the day approaches for the Queen's Diamond Jubilee when the aged empress will sit in her open carriage at the steps of St Paul's Cathedral? The entire British Empire holds its breath as the assassin, Margaret, and the Queen herself play for the highest of stakes with the Queen's Gambit.
