Trick Soldier Jan 14 2020 Meet Lieutenant Flint: hard-edged and muscle-bound, radiating machismo—a bull of a soldier. In the opposite corner stands Captain Turner: with his pencil mustache and tailored shirts, he's a Trick Soldier—smart, crisply-dressed, and always at attention. They're fire and ice, oil and water... Sean Penn and Michael J. Fox in *Casualties of War*. Ten years ago and a thousand miles away, they attended boot camp together. They didn't get along then . . . and they don't get along now. Reunited in the Haitian jungles, in the midst of a fierce rebel uprising, they confront the most dangerous enemy of all—each other. It's time for heroes to rise and cowards to fall, and in the case of Lieutenant Flint and Captain Turner, bravery runs deep. When brute strength confronts military honor, the true measure of a man is not in his fists, but in his heart. A First Sergeant with the 20th United States Marine Corps Reserve, Hubbard knew exactly what it meant to be a Marine. As he wrote in 1935: "Most of the fiction written about [Marines] is of an intensely dramatic type, all do-or-die and Semper Fidelis." But the reality, he said, was far different. "I've known the Corps from Quantico to Peiping, from the South Pacific to the West Indies, and I've never seen any flag-waving. The most refreshing part of the U.S.M.C. is that they get their orders ... and do the job and that's that." It's that kind of unique and pointed insight that he brings to stories like *Trick Soldier*. Also includes the military adventures *He Walked to War*, in which Marine Sergeant E.Z. Go appears to take it easy, but always gets the job done ... even if it's hard as nails or dangerous as hell—in the end E.Z. does it; and *Machine Gun 21,000*, the story of a soldier who loses a gun and faces a court martial, but

finds a way to save the day.

The Jupiter Ace Manual Feb 19 2023 Launched at the peak of the legendary 1980s microcomputer rivalry, the Jupiter ACE was the most intriguing machine of them all, marketed by Jupiter Cantab. This company was founded by Richard Altwasser and Stephen Vickers - the key hardware and software designers for the legendary Sinclair ZX Spectrum. This collector's edition of the manual is an almost exact reproduction of the original that accompanied the Jupiter ACE and is brought to you by the current owners of the ACE brand as a celebration of the 40th anniversary of the launch of the special computer that so many people hold dear. The original designers wanted the Jupiter ACE to be a programmers' machine, and although sales were not necessarily stellar, they achieved exactly what they set out to. Now, almost forty years on, you can once again learn not only how to code the Jupiter ACE but also the foundations of the still-useful programming language FORTH.
