"An elegant anthology. The specialist will not miss the quiet sophistication with which the music has been selected and prepared. Some of it is printed here for the first time, and much of it has been edited anew." "Notes" This treasury of 47 vocal works edited by Noah Greenberg, founder and former director of the New York Pro Musica Antiqua will delight all lovers of medieval and Renaissance music. Containing a wealth of both religious and secular music from the 12th to the 17th centuries, the collection covers a broad range of moods, from the hearty "Blow Thy Horn Thou Jolly Hunter" by William Cornysh to

*the reflective and elegiac "Cease Mine Eyes" by Thomas Morley. Of the religious works, nine were written for church services, including "Sanctus" by Henry IV and "Angus Dei" from a beautiful four-part mass by Thomas Tallis. Other religious songs in the collection come from England's rich tradition of popular religious lyric poetry, and include William Byrd's "Susanna Farye," the anonymously written "Deo Gracias Anglia" (The Agincort Carol), and Thomas Ravenscroft's "O Lord, Turne Now Away Thy Face" and "Remember O Thou Man." Approximately half of the songs are secular, some from the popular tradition and others from the courtly poets and musicians surrounding such musically inclined monarchs as Henry VIII who himself is represented in this collection with two charming songs, "With Owt Dyscorde" and "O My Hart." Among the notable composers of Tudor and Elizabethan England represented here are Orlando Gibbons, John Dowland, and Thomas Weelkes. He has studied opera and is a published*

*librettist, in addition to his prolific work in critical essay writing and editing literary anthologies. Having lived several lives, Gioia brings an insightful, varied, eclectic eye to this year's Best American Poetry. With his classic essay "Can Poetry Matter?", originally run in The Atlantic in 1991, Gioia considered whether there is a place for poetry to be a part of modern American mainstream culture. Decades later, the debate continues, but Best American Poetry 2018 stands as evidence that poetry is very much present, relevant, and finding new readers. *collections from many different European countries and in a wide range of medieval languages, this volume sheds new light on common trends and regional differences in the history of book production and reading practices. Most of the essays collected in this volume had their origins in a conference entitled Nouveaux regards sur le manuscrit 564 de Chantilly/New Perspectives on the Chantilly Codex held on 13-15 September 2001 in Tours, under the auspices of the Centre d'Etudes Supérieures de la Renaissance (Université François Rabelais/Centre Nationale de la Recherche Scientifique). The conference was the last in a series of meetings held that week marking the tenth anniversary of the musical research branch, Programme Ricercar. The idea to hold the conference had emerged in 1999 as we ourselves embarked on a collaborative project on this most fascinating of music sources from the late Middle Ages. Our own extended scrutiny of the codex and its contents, which has culminated in the publication of a detailed study and the first colour reproduction of the manuscript made us keenly aware of the significance of this source and its repertory to our understanding of the history of music before 1600. The Chantilly codex is beyond doubt one of the most important sources for late medieval secular polyphony. These articles are mainly concerned with medieval French literature, particularly those areas in which the honorand of the volume, Rupert T. Pickens, has distinguished himself: Old French Arthurian romance, Marie de France, chanson de geste, later*

poetry (including Villon), and the Occitan troubadour lyric. Among the contributors are some of the most significant scholars from the U.S.A., Canada, France, Switzerland, and the U.K. working in Old French studies today. The volume will be of interest to specialists in Old French, Occitan, and medieval literature generally. Some of the articles deal with relatively unknown works, and all are informed by current developments in medieval literary studies This book demonstrates conclusively the identity of the solar and lunar rites of the Greeks, Romans and other peoples, ancient and modern, to the rites of Freemasonry and Christianity. '...a complete demonstration of the incorporation of the Solar and Phallic Mysteries in Christianity.' Aleister Crowley Musical Culture in the World of Adam de la Halle explores the 13th-century composer's music, drama, and poetry in the context of his urban environment. The authors use approaches from musicology, history, art history, and literary studies. (Educational Piano Library). This collection was inspired to meet the need for more preparatory literature for the intermediate-level pianist that explores the unique pianistic and musical challenges of the Impressionist style. Pianists who study this stunning collection of solo pieces will experience the layers of color, touch, and timing so necessary to a fine interpretation of this musical style. Musical directions are written in French throughout and a glossary of French musical terms is included. 6 Solos: The Cat and the Gnat \* Evening Tide \* Moonshadows on the Mountain \* Butterflies in
