Tiny House on the Road Apr 28 2021 A tiny home is where the heart is in this novel from the author and TV producer whose credits include *Extreme Makeover: Home Edition*. It's not the size of the house . . . At twenty-two, Vivien Orlando is already a homeowner—albeit of the tiniest of tiny houses, a whopping 64 square footer called “Shrimpfork.” It's the perfectly portable home from which to run Organization Oracle, Vivien's new business as a personal organizer. In fact, she'll be toting Shrimpfork to her upcoming client's home near Taos, New Mexico. Seventy-year-old Priscilla has a colorful past, a rambunctious boxer named Clay—and a home crammed with treasures . . . Priscilla also has a love for the TV program “This Old Thing?” Her twenty-five-year-old neighbor, Marco, is happy to watch it with her—while watching over her. When Vivien arrives, it's clear she and Marco are suspicious of each other's intentions. But Priscilla's determination to get her most cherished possession appraised on “This Old Thing?” soon has all of them grudgingly working together. Vivien and Marco find themselves in cahoots, Priscilla discovers the wider world, Clay digs up trouble—and everyone learns that sometimes the greatest treasures are valued for their flaws . . . Praise for Celia Bonaduce and her novels “Celia Bonaduce writes well rounded, real life characters straight from the heart. I loved this book!”—Phyllis Miranda, New York Times bestselling author “The Merchant of Venice Beach has a fresh, heartwarming voice that will keep readers smiling as they dance through this charming story by Celia Bonaduce.”—Jodi Thomas, New York Times bestselling author [Tiny House Basics](#) Aug 13 2022 Small, simple, sustainable: Tips and

The Big Tiny Jun 30 2021 Part how-to, part personal memoir, The Big Tiny is an utterly seductive meditation on the benefits of slowing down, scaling back, and appreciating the truly important things in life. More than ten years ago, a near-death experience abruptly reminded sustainability advocate and pioneer Dee Williams that life is short. So, she sold her sprawling home and built an eighty-four-square-foot house—on her own, from the ground up. Today, Williams can list everything she owns on one sheet of paper, her monthly housekeeping bills amount to about eight dollars, and it takes her about ten minutes to clean the entire house. Adapting a new lifestyle left her with the ultimate luxury—more time to spend with friends and family—and gave her the freedom to head out for adventure at a moment's notice, or watch the clouds and sunset while drinking a beer on her (yes, tiny) front porch.

Tiny House May 10 2022 What are tiny houses? The tiny house movement? Tiny living? Simply put, it is a social movement where people are choosing to downsize the space they live in. The typical American home is around 2,600 square feet, whereas the typical small or tiny house is between 100 and 400 square feet. Tiny houses come in all shapes, sizes, and forms, but they enable simpler living in a smaller, more efficient space. People are joining this movement for many reasons, but the most popular reasons include environmental concerns, financial concerns, and the desire for more time and freedom. For most Americans 1/3 to 1/2 of their income is dedicated to the roof over their heads; this translates to 15 years of working over your lifetime just to pay for it, and because of it 76% of Americans are living paycheck to paycheck. So what is the alternative? One solution might be to live smaller. While we don't think tiny houses are for everyone, there are lessons to be learned and applied in order to escape the cycle of debt in which almost 70% of Americans are

trapped. For more information click on BUY BUTTON Tag: build tiny house, tiny house plans, tiny house living, tiny house basics, tiny house
