Elevate the Debate Dec 20 2022 Learn how to make data-driven research accessible to decision makers, policymakers, and the general public Many researchers, scholars, and analysts fail to develop communication strategies that work in today's crowded landscape of content, research, and data. To be successful, modern researchers need to share their insights with the wider audience that lies beyond academia. Elevate the Debate helps researchers of all types more effectively communicate their work in any number of areas, from traditional news outlets to the new media platforms of the digital age. After reading this book, you will be inspired and equipped to use traditional and digital media environments to your advantage. This real-world guide helps you present your

data-driven research with greater clarity, coherence, and impact. An array of practical strategies and proven techniques enables you to make your research accessible to diverse audiences, form engaging narratives, and design and implement meaningful outreach plans. Each chapter examines a specific communications strategy, such as data visualization, presentation skills, social media, blog writing, and reporter interactions. Written by expert members of the Urban Institute's Communication department, and edited by Jonathan Schwabish, a Senior Fellow at Urban, Elevate the Debate guides you on how to use the media environment to your advantage and make a difference through policy insights and policy solutions. This valuable book teaches you how to: Develop and apply data-driven and story-focused communication Use the "Pyramid Philosophy" of rooting accessible, engaging communications products in sophisticated research. Solve problems with your research by defining goals and recommending conclusions-based actions Identify the researchers, organizations, funders, influencers, and policymakers who are most important to your goals and precisely target their information needs Employ communication styles and strategies to get your work in the hands of people who can use it and act upon it. Elevate the Debate: A Multi-layered Approach to Communicating Your Research is a must-have resource for academic researches, policy researchers, and all analysts of data-driven research.

How to Make the Management of Public Finances Climate-Sensitive-“Green PFM”

Nov 19 2022 This How to Note develops the "green public financial management (PFM)" framework briefly outlined in an earlier Staff Climate Note (2021/002, published in August 2021). It illustrates, how climate change and environmental concerns can be mainstreamed into government's institutional arrangements in place to facilitate the implementation of fiscal policies. It provides numerous country examples covering possible entry points for green PFM - phases in the budget cycle (strategic planning and fiscal framework, budget preparation, budget execution and accounting, control, and audit), legal framework or issues that cut across the budget cycle, such as fiscal transparency or coordination with State Owned Enterprises or with subnational governments. This How to Note also summarizes practical guidance for implementation of a green PFM strategy, underscoring the need for a tailored approach adapted to country specificities and for a strong stewardship role of the Ministry of Finance.

Base-1 method: A structural-functional approach to word, sentence and discourse readability Feb 27 2021 Text readability is at the core of successful reading instruction and language learning. To counteract the challenges of complex reading content, text leveling is a vital necessity for readers with

limited language access. A transdisciplinary analysis of reading development and linguistic interrelations builds the theoretical foundation of the base-1 method. This method focuses solely on structural and functional text elements on the word, sentence and cohesion level. But this book also discusses the significance of other prevalent readability factors, such as the reader's language knowledge or socio-cultural background. The base-1 method is designed to level early reading texts in German and other alphabetic languages. Experimental tests with a German immersion population has led to a preliminary calibration to demonstrate the validity of this approach. Bernd Nuss ist erfahrener Immersionslehrer in verschiedenen Programmen, die sich über Nord-, Zentral- und Südamerika erstrecken. An der E. E. Waddell Language Academy wirkt er schulintern als Immersion Facilitator, kooperiert mit Bildungsorganisationen und betreut die Praktika von Gaststudierenden an der Schule. Bernd Nuss has worked as an educator and facilitator in English and German language immersion programs all over the Americas and in Europe. In this capacity, he has also been collaborating as a researcher with universities and other educational institutions in Europe, Asia, and the USA.

The Learning Healthcare System Feb 10 2022 As our nation enters a new era of medical science that offers the real prospect of personalized health care, we will be confronted by an increasingly complex array of health care options and decisions. The Learning Healthcare System considers how health care is structured to develop and to apply evidence-from health profession training and infrastructure development to advances in research methodology, patient engagement, payment schemes, and measurement-and highlights opportunities for the creation of a sustainable learning health care system that gets the right care to people when they need it and then captures the results for improvement. This book will be of primary interest to hospital and insurance industry administrators, health care providers, those who train and educate health workers, researchers, and policymakers. The

Learning Healthcare System is the first in a series that will focus on issues important to improving the development and application of evidence in health care decision making. The Roundtable on Evidence-Based Medicine serves as a neutral venue for cooperative work among key stakeholders on several dimensions: to help transform the availability and use of the best evidence for the collaborative health care choices of each patient and provider; to drive the process of discovery as a natural outgrowth of patient care; and, ultimately, to ensure innovation, quality, safety, and value in health care.

Wedding Storyteller, Volume 2 Feb 22 2023

In *Wedding Storyteller, Volume 2: Wedding Case Studies and Workflow*, photographer and bestselling author Roberto Valenzuela uses wedding case studies extensively to teach you in great detail the entire *Wedding Storyteller*

Skill Components system that he introduced in Volume 1. Drawing from his highly successful career, Roberto shares multiple case studies from numerous real-world weddings, covering the entire wedding timeline, from the beginning of the day when the couple is getting ready until the last portion of the reception. Roberto goes into deep technical detail regarding how to apply the *Wedding Storyteller Skill Components* system to help you excel at photographing weddings for your own clients. Copiously illustrated with nearly 700 photographs and illustrations, the book covers: The five key elements of assessing the getting-ready rooms The four types of wedding party group photos Roberto's system for ceremony coverage, TARPP (The Action/Reaction Position Plan), which details the 10 crucial positions for the photographer to use to create the best and most cinematic story of the ceremony The "situational approach" to bride and groom portraits The three main locations for family portraits, and how to photograph "elevated" family portraits in each of them And much more Also included is Roberto's invaluable advice concerning such topics as equipment preparation, wedding psychology, lens selection and usage, and the importance of including imperfect but "fun" photos in your wedding photography (your clients will love it!). In *Wedding Storyteller, Volume 1*, you learned the

Wedding Storyteller Skill Components system, which provides the foundation for your wedding photography. Here, in Volume 2, you'll learn how to execute that system to perfection.
